About us

BORNIC, its original name is ZTN VALVE, which is located in Yuhuan, Zhejiang Province, where is well-known as "Valve Capital of China" like Brescia in Italy. It was founded in 2005 specialized in research and development and production of qualified brass fittings and brass valves. As an experienced OEM & ODM service provider, BORNIC supports the plumbing and heating systems of residential houses, commercial and industrial buildings with pipes, valves, fittings, tools and accessories.

We are a dynamic company with a solid history and a steadfast mission to the innovation, ensuring the highest level of quality to our clients.

The emphasis on quality in all industrial products opens the door to the global markets in Europe, the United States and Latin America.

Now, our group is composed of BORNIC, YUHUAN TUFEL, AND FLOWFLEX ENTERPRISE CO., LTD. We not only have a complete process in product development, design, production, assembly, quality control, etc., but also the core strength in import and export, shipping, after-sales service, etc.

2005

founded in YUHUAN where is called "Valve Capital of China"

2010

Already have all the pipe fittings series, began to develop HVAC series

2013

As the understanding of the heating industry continues to increase, manifolds, radiator valves and other series are launched one after another

2018

Relying on superb technology, stable quality, and high-quality service, we cooperated with more and more high-quality customers and began to invest in mixing valves and pressure reducing valves

2022

While serving all customers well, pay more attention to environmental protection and contribute to the world's environmental protection

Future :

Excellent quality, global service
